## PRESENTER

Maria Miskovic, MSW, LCSW, C-ASWCM has worked in virtually all care settings for over 25 years. She started Care Choice Care Management where she mentors and oversees a private practice of highly experienced team of nurses, social workers, and gerontologists. While care coordination and navigation is Care Choice's primary service, they have added Powers of Attorney for Healthcare, Guardianship, and Counseling to their programs.

**Being a caregiver for someone with memory impairment is one of the hardest caregiving jobs out there. This presentation will explore a variety of resources and strategies in the Greater St. Louis area that could make the job a little easier. From early recognition of symptoms, to functional support with medical, mental health, educational, and practical care coordination applications, we will discuss a wide variety of information to assist caregivers with this challenging role**
